Outcomes and Impacts

- 25+ students trained
- Teachers became more confident with technology
- Laid the foundation for future digital learning

iLab bridging classroom learning with real-world

Key Activities:

- Bridging Educational Gaps
- Fostering Practical Skills
- Cultivating a Culture of Innovation
- Empowering Changemakers

Outcomes and Impacts

- 8 Schools Impacted over 7 districts
- 450+ students trained
- 25+ teachers trained

IMMERSIVE STUDY TOUR

Opportunity to explore diversity in Nepal

Key Activities:

- Built connections, overcame challenges together, and fostered lifelong friendships
- Bridged theory with real-world applications for sustainable impact
- Inspired participants to engage in local activities with a sense of responsibility
- Enhanced understanding of global diversity through different cultural lenses

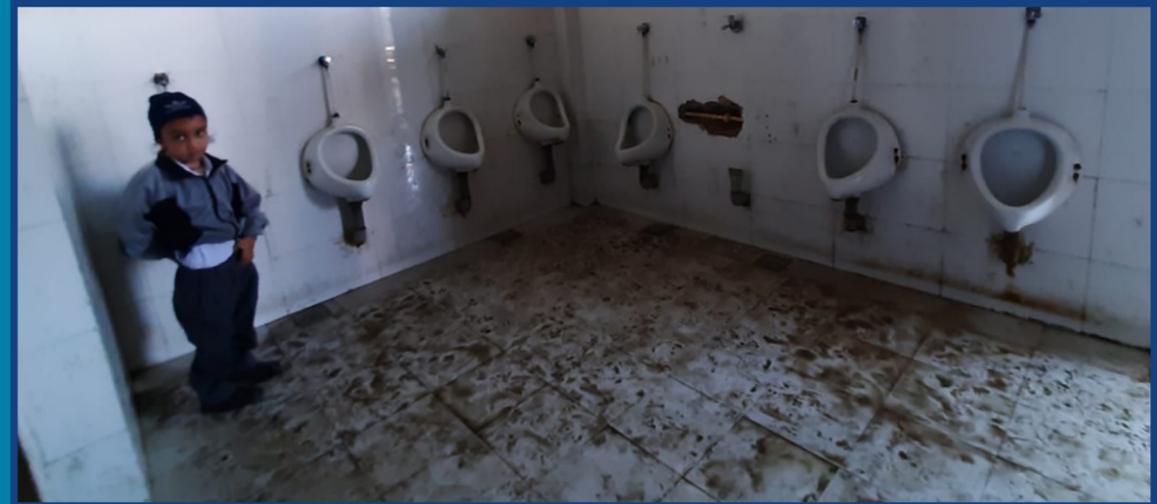

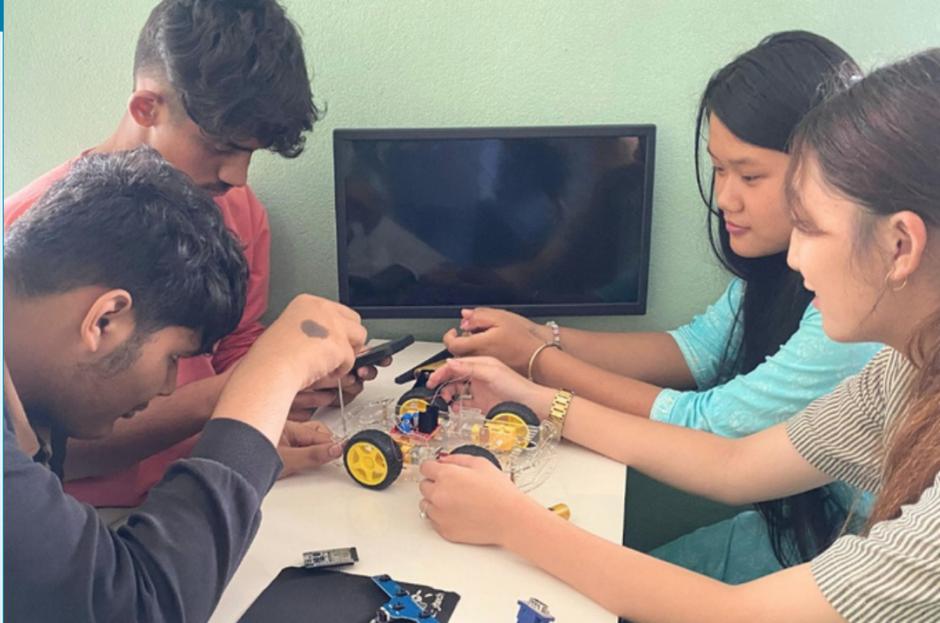

WASH

Providing clean water, better sanitation, and hygiene education

Key Activities:

- Repair or upgrade existing toilets and handwashing stations
- Install gender-friendly and disability-accessible sanitation facilities
- Promote safe water and sanitation as part of overall health and community well-being
- Encourage environmentally friendly practices such as rainwater harvesting and waste segregation
